

Download the FREE Pathways.org app to help track and promote baby's development!

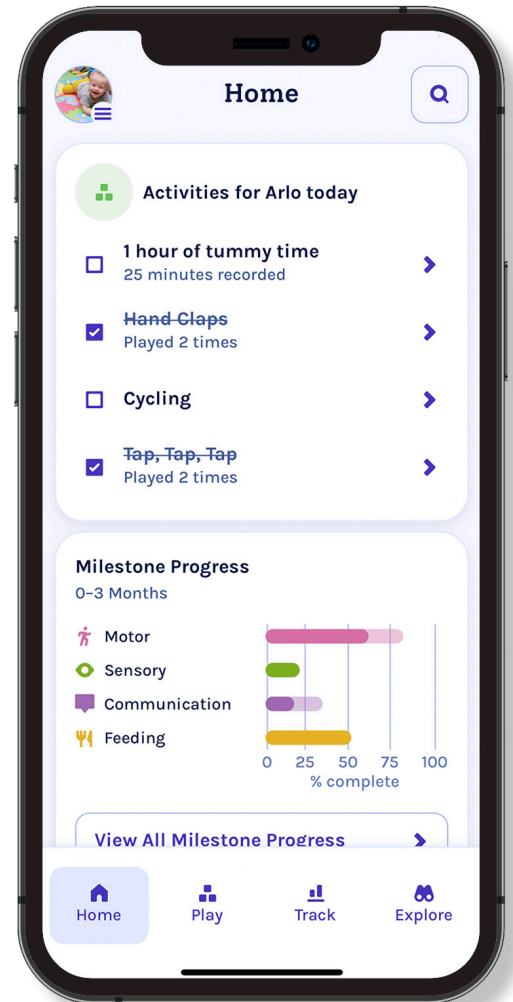

With this FREE and easy-to-use app, parents can:

- Create a profile for baby to track milestones and abilities
- Adjust for prematurity so baby's milestones are accurate
- Watch videos with tips and activities
- Easily track baby's Tummy Time
- Find answers to questions about baby's development
- Save and share content you love

Pathways.org provides FREE resources parents can trust

The developmental milestones Pathways.org uses are validated by American Academy of Pediatrics findings, and all resources are developed with and approved by expert pediatric physical and occupational therapists and speech-language pathologists.
